Myo Gesture Tutorial

The MYO is a creative controller for interacting with your ez-robot. It uses gestures and an accelerometer to trigger actions, events and move servos. This tutorial demonstrates how to add a Myo to your EZ-Robot. Here's a link to the manual page: http://www.ez-robot.com/Tutorials/Help.aspx?id=206 [youtube]Orei8dmcSd4[/youtube]Last Updated: 9/15/2015

Step 1

The MYO is a creative controller for interacting with your ez-robot. It uses gestures and an accelerometer to trigger actions, events and move servos. This tutorial demonstrates how to add a Myo to your EZ-Robot.
