Featured Product: Education Bundle

Inspire 90% of **ALL** your students to learn robotics with the world's most powerful, versatile, and easy-to-use robot platform.

The Education Bundle includes our 3 most popular robots, as well as a variety of connectors and adaptors, an ultra-sonic distance sensor, and some spare servos - everything your students need to build and program powerful robots.

Our "Inspired Robotics" curriculum guides students through an exploration of real-world robotics, and because it's self-directed, your teachers don't need to be experts.

Anyone can teach powerful robotics with this curriculum!

Education Bundle (3 robots & spare components)	\$1,699
Curriculum	\$999
Classroom Set (15 robots & curriculum & training)	\$9,749

Humanoid \$599

Students love to program and interact with our Humanoid robot. Hours of enjoyment and learning

Hexapod \$499

Maximum versatility allows students to create, innovate and program their robot to conquer obstacles

Rover \$549

Mission control, we have lift-off. Powerful tractor treads allow the rover to explore it's environment

AdventureBot \$269

AdventureBot is a great introduction to EZ-Robot and can be expanded with additional components

Robot Head Kit \$249

Have a conversation with A.I. 3D printable robot head kit that students print, build, and program

Developer Kit \$269

Innovation and inspiration in a box! Challenge your students to design and build their own robots
