## Featured Product: Education Bundle

Inspire 90% of **ALL** your students to learn robotics with the world's most powerful, versatile, and easy-to-use robot platform.

The Education Bundle includes our 3 most popular robots, as well as a variety of connectors and adaptors, an ultra-sonic distance sensor, and some spare servos - everything your students need to build and program powerful robots.

Our "Inspired Robotics" curriculum guides students through an exploration of real-world robotics, and because it's self-directed, your teachers don't need to be experts.

**Anyone can teach powerful robotics with this curriculum!**

Education Bundle (3 robots & spare components)	\$1,549
Curriculum	\$999
Classroom Set (15 robots & curriculum & training)	\$8,999

**Humanoid** \$549

Students love to program and interact with our Humanoid robot. Hours of enjoyment and learning

**Hexapod** \$449

Maximum versatility allows students to create, innovate and program their robot to conquer obstacles

**Rover** \$499

Mission control, we have lift-off. Powerful tractor treads allow the rover to explore it's environment

**AdventureBot** \$249

AdventureBot is a great introduction to EZ-Robot and can be expanded with additional components

**After-school curriculum** \$399

A great option for up to 12 hours of robotics fun and education. Includes 2 hrs of teacher training.

**Developer Kit** \$179

Innovation and inspiration in a box! Challenge your students to design and build their own robots
